

COMMERCIAL TEAM FOCUS ITEMS

HYALURONIC ACID:

. High molecular weight hyaluronic acid: film formation on the skin, protection, and hydration. usage %: 0,01% a 0,1%. COSMOS

HYACTIVE®:

. Very low molecular weight hyaluronic acid: anti-aging activity - reduction of expression lines ("crow's feet") - acts at greater depth - dermis. usage %: 0,005% a 0,5%. Tested in vivo and in vitro. COSMOS

HYSILK®:

. Low molecular weight hyaluronic acid: reduces cutaneous sebum production by 20% - controls skin oiliness. usage %: 0,01% a 0,25%. Tested in vivo and in vitro. COSMOS

HA OIL:

. Oily hyaluronic acid that penetrates hair and nails, providing extreme hydration. Stimulates the growth of new hair follicles. Provides strength and softness to hair strands. Increases lip volume.
